Subject: Another Move Backwards from our Constutional Foundations

We, the people of th United States, are set forth to live in a state of liberty, freedom and justice. If we decide, if we may, to allow a ridiculously sized Monopoly, such as Walmart, to create a Bank Institution, then we are doomed to live in a state of lies and slavery.

We will work for them (because there is no where else to work), get our money from, have them hold our money, and give it right back to them. If one company controls the cash flow in such a way, we are in instance giving them every oppurtunity to control it in which anyway they wish.

Our capitalistic based country is good and allows freedom, but it should also protect those whom enjoy that freedom from those who abuse it. Walmart is a giant. Cash is far less from what it needs. What it needs is to help its own employees and give back a little for so how much it has taken. This unfortunatley is not happening; and is quite often proven in the news.

I am , for one, not backing the decision of Walmart creating a Bank Institution. They prove abundantly that they are greedy and care nothing for others but their higher ups. Lets not turn this country into one big Wal Mart.

Thank You,

Matthew R. Haynes
